School Assessment Leader Updates 2021-22

Programme Objectives:

School Assessment Leaders (SALs) Update Meetings are focused on both the assessment of learning and assessment for learning.

The first focus ensures that SALs are as up-to-date as possible in their knowledge and understanding of statutory assessment requirements. As well as disseminating this information, the Course Tutors will provide the names of useful publications and websites to support delegates. Course Tutors also encourage delegates to ask questions and discuss current issues so that they can return to their schools as fully informed as possible.

The second focus on assessment for learning will include sharing of latest research, presentation of case studies and often the invitation to course delegates to share and discuss with their colleagues. This last aspect is regarded as particularly valuable as a networking tool that enables delegates to develop their assessment skills in a very supportive environment.

The facilitator for this training is **Jane Downes, Education Advisor, Juniper Education**

"The assessment part was informative and answered any questions that I had."

"very good as always, particularly in scouring gov.uk for updates so we don't have to."
