Emergency First Aid at Work 1 day certificated training

Course Content:

This course is designed to teach those working with children, lifesaving procedures in First Aid, including how to handle emergencies Topics covered include responding appropriately to choking, shock, anaphylactic shock, suspected fractures and bleeding. Resuscitation techniques will also be covered, and recognising and responding to the emergency needs of children with chronic medical conditions including epilepsy, asthma and diabetes. A full syllabus is detailed below.

Upon reaching a competent standard in all units (and whilst there is no formal examination), the candidates will be assessed during the course and an attendance certificate will be issued. The certificate is **valid for 3 years** from the date of completion of the course.

There will be practical activities so comfortable clothes should be worn. Females should wear trousers.

The facilitator for this training is **GeesTraining Services**.
